BrightPath Tech - Response to RFP-2026-017

Fast, affordable procurement software | Fictional document for classroom use

1. Executive Summary and Understanding of the Requirement

BrightPath Tech offers a ready-made SaaS procurement portal that Meridian can adopt quickly. We understand that Meridian wants low cost and a short timeline. Our standard product covers supplier onboarding and simple approval workflows.

2. Proposed Solution and Implementation Approach

Solution: Our multi-tenant SaaS product provides a standard API and a supplier portal. ERP integration is handled through CSV import and export; a native ERP connector is planned for a future release.

Approach: Meridian configures the standard workflow templates with our help. Customisation beyond configuration is not included.

3. Timeline, Team Structure and Milestones

Phase	Duration	Milestone
Setup	2 weeks	Tenant ready
Configuration	8 weeks	Workflows configured
Go-live	4 weeks	Production

Delivery is led by a project manager supported by two configuration consultants. No separate risk plan is included.

4. Price Table and Assumptions

Item	Amount
Fixed price implementation	USD 168,000
Annual licence (per year)	USD 42,000
Total cost, year 1	USD 210,000

Assumptions: Price is fixed. Assumes standard workflows only. Payment 50% at signing and 50% at go-live.

5. Security, Compliance and Risk Controls

BrightPath follows industry-standard security practices and encrypts customer data.

Further security documentation is available on request.

Risk management: Risks are not separately assessed in this response.

6. Support Model, Experience and References

Email support during business hours. BrightPath was founded in 2022 and has completed one similar project.

References: No references are available at this time.
