Orbit Digital - Response to RFP-2026-017

Fifteen years of procurement transformation | Fictional document for classroom use

1. Executive Summary and Understanding of the Requirement

Orbit Digital proposes a procurement platform backed by fifteen years of experience delivering supplier management programmes for large manufacturers. We understand that Meridian wants a trusted partner with a proven record.

2. Proposed Solution and Implementation Approach

Solution: A configurable portal with workflow, contract repository and supplier scorecards. We can connect to the ERP; integration details will be finalised during discovery.

Approach: The technical design will be agreed with Meridian after contract signature.

3. Timeline, Team Structure and Milestones

Phase	Duration	Milestone
Discovery	4 weeks	Requirements
Build	12 weeks	Release candidate
Rollout	8 weeks	Go-live

Team composition will be confirmed at project start. The overall duration is 24 weeks.

4. Price Table and Assumptions

Item	Amount
Implementation (fixed price)	USD 355,000
Annual licence (per year)	USD 70,000
Total cost, year 1	USD 425,000

Assumptions: Assumes standard integration scope. Anything beyond this is handled as a change request.

5. Security, Compliance and Risk Controls

Orbit Digital holds SOC 2 Type II certification. Data is encrypted and audit logging is enabled.

Privacy practices follow GDPR; full details are in our trust centre.

Risk management: A formal risk register will be provided after discovery.

6. Support Model, Experience and References

A 24x7 support desk with SLA tiers and an escalation process, plus customer success managers. Orbit has worked with more than 40 clients over 15 years, including twelve similar procurement projects.

References: Five reference clients and three case study summaries are attached, including two Fortune 500 manufacturers.
